

NEW 3-WIDE ASSEMBLIES

Model RP-136 Re-aligner

Each web input into the re-aligner will produce a *6-page broadsheet or a 12-page tabloid when using the folder slitter*. Compact and versatile unit with operator friendly features. Made in the USA with high quality components like Seal Master, Dodge, Baldor and Dayton.

Crush or Shear style slitters. The unit will slit each incoming web into two (2) similar or dissimilar ribbons. Each ribbon will be repositioned for correct placement over the former board.

One draw roller and one slitter assembly that will be driven by one (1) 3 HP AC motor and drive assembly. Choice of voltage input.

Two chrome plated motorized angle bars & two chrome plated stationary angle bars. Angle bars are drilled for air and pre-plumbed to manifold.

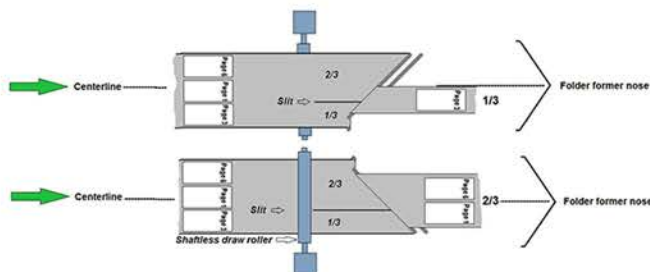

One full page linear motorized compensator. Two pneumatic trolley assemblies & one pneumatic slitter assembly. Bypass features when not in use.

Optional:

- Mounting brackets per application
- Blowers
- Catwalk, railing and stairs
- Delivery and Installation

THREE WIDE ILLUSTRATION

Note: Half web can be placed on bottom or top (requires re-web), operator or gear side
