

# Service Team

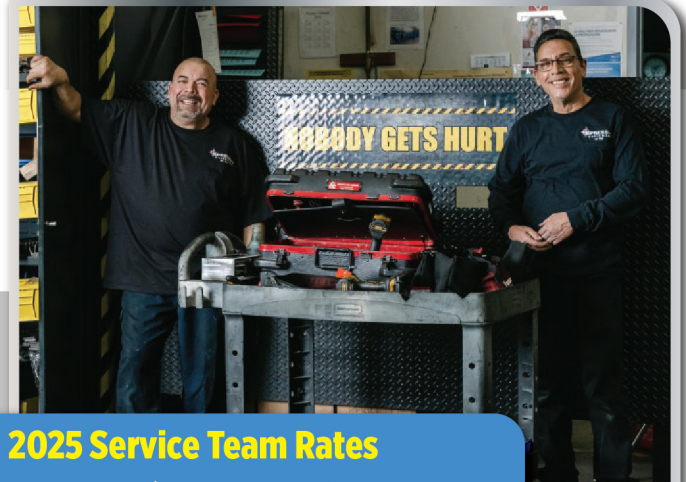

We staff the finest Service Technicians, Mechanics, Electricians and Installers in the industry. We have worked for decades to assemble our team and have experts in each area.

We have training and consulting experts who can perform on-site audits and press optimization for waste reduction and quality improvements.

Our long-term team members are organized professionals who have helped customers all over the world and will exceed your expectations. We are focused on your success and understand that our continued success hinges on yours.

Our service rates are intended to simplify the process of planning your project. We quote jobs "by the day" and adhere to our estimates. We work seven days per week at the same flat rate, often performing maintenance and service work around busy production schedules.

## 2025 Service Team Rates
